

# Fatih AYDIN

## .NET Backend Developer

[a.fatihaydn@gmail.com](mailto:a.fatihaydn@gmail.com) | +90 531 216 5024 | [linkedin.com/in/fatih--aydin](https://www.linkedin.com/in/fatih--aydin) | [github.com/FatihAydin](https://github.com/FatihAydin) | [fatihaydin.dev](https://fatihaydin.dev) | Antalya

### Summary

Backend focused .NET developer with 2 years of FullStack experience, specializing in building scalable solutions with **.NET Core**, **C#**, and modern architectures like N-Layer/Onion. Uses strong skills in **JavaScript** and **jQuery** for Frontend work while actively expanding expertise in **Angular** and **TypeScript**. Committed to writing clean, maintainable code and creating efficient systems that deliver real world impact.

### Experience

#### **alkapida.com**

Istanbul

#### Backend Developer

September 2023 - Present

Developed backend systems using .NET Core, C#, Web API, and MSSQL for various business solutions.

Key projects:

- **Product Tracking Panel:** Developed a barcode-based system that automatically captures product weight from scales and syncs data to the web, reducing product registration time from 1 minute to 5 seconds per item and enabling real-time sales tracking.
- **Employee Management System:** Automated payroll and tax calculations using N-Tier Architecture.
- **Gmail API Integration:** Automated PDF invoice processing and forwarding from supplier emails using OAuth 2.0 integration, reducing manual email handling by 3 hours per day.
- **RFID Tracking System:** Reduced manual inventory counting by 90% using RFID technology and C# Windows Forms.
- **E-commerce API Integration:** Unified product and order management for platforms like Amazon, Trendyol and Hepsiburada.

Also worked on product tracking panels, barcode systems, and Microsoft Entra ID integration for authentication.

### Skills

**Backend:** C#, .NET Core, ASP.NET Core, Web API, MVC, Entity Framework, Clean Code, Performance Optimization, Software Architecture (N-Layer, Onion)

**Frontend:** JavaScript, jQuery, TypeScript, Angular, HTML, CSS, Bootstrap, UX/UI

**Database:** SQL, SSMS, MongoDB, Redis

**Tools & Others:** Git, Docker, CI/CD, Microsoft Azure, Windows Forms, RFID Solutions

**Language:** Upper-Intermediate English Proficiency

**Certificates:** Microsoft Back-End Development with .NET, MCSD - Software Expertise, Techcareer ASP.Net Core MVC Bootcamp

### Education

#### **Anadolu University**

Bachelor's Degree, Management Information Systems

September 2025 - Present

#### **Kastamonu University**

Associate Degree, Computer Programming

September 2019 - June 2021

### Personal Projects

#### **fatihaydin.dev**

Personal portfolio developed with Angular/TypeScript.

#### **LetMeFixWeb** - Active Development

Developing a scalable service marketplace platform (similar to Armut/TaskRabbit) using **.NET 8**, Entity Framework, MongoDB, SSMS with **Onion Architecture**.

Implementing core features including user authentication with ASP.NET Core Identity with **JWT**, service listing management, and a bidding system.
